### Corporate Governance MANAGEMENT DISCUSSION AND ANALYSIS

The Discussion contained herein is based on certain secondary and primary research reports coupled with the Company's analysis. Thus, there are certain risks associated with these forward looking statements and the Investors are cautioned regarding the same. These statements are also based on the perceived and actual risks, which arise out of Company's growth plans, existing and future projects, availability of qualified and skilled manpower, dependence on certain businesses and other factors.

#### **INDUSTRY OVERVIEW**

Indian Entertainment and Media (E&M) industry went through a tough phase in the last two years due to the economic slowdown which impacted business in the country. The industry which is dependent on advertising for almost 38% of its revenues was hit due to shrinking advertising budgets of the corporate world. The overall E&M industry size grew from Rs. 579 billion in 2008 to Rs. 587 billion in 2009 at a rate of 1.4% as compared to 12% in 2008.

#### **OPPORTUNITIES AND THREATS**

#### **Opportunities:**

The ever evolving technologies in television open more opportunities and challenges. The E&M industry is ready to zoom at a very fast pace catalyzed by many factors like convergence of media, film, digital media and increase in broadband penetration thus helping it to become a front runner. The fact that significant households of India are still without television connectivity highlight the scope of growth in the segment and also Indian content have been accepted globally, mainly in European countries, South East & Middle East countries. This gives the E&M industry international exposure and acceptance in terms of technology, content, markets, etc.

Secondly, Cost of production of Hindi programmes has increased considerably the driving factor being the increasing manpower and 'stars' costs, thereby decreasing the profit margins. On the other hand, the Regional markets give us the opportunity to work at lower cost and thereby giving us higher profit margins.

Hence, Global and Regional are the two mantras that can be adopted in the near future.

#### Threats:

The Threats arise mainly from rising competition, both from General Entertainment channel (GEC) and other niche channels. At the same time there is a sharp increase in cost of production. More MNC competitors entered in E&M Industries with the good financial backup which makes it difficult for domestic companies to create a space for itself in the competition. The competition and the increasing prices may adversely affect our ability to acquire desire programming and artistic talent.

Also Government and Ministry of information and broadcasting (MIB) are tightening the guidelines for E&M Industry.

#### **OUTLOOK**

The year 2009 continued to show growth in the regional markets and going forward, it is expected that Regionalization is likely to be one of the significant factors driving growth with growing increase in literacy consumption and disposable incomes in Tier 2 & 3 cities. Advertisers are also increasing focus in rural markets due to saturation of urban markets. Demand of regional content is also growing.

#### **RISK MANAGEMENT**

#### A. Internal

Media Companies are prone to high employee turnover this risk is present in our company, which can affect the productivity & quality of the product, but company will formulate favorable HR policy to retain its good highly efficient employee.

#### B. External

The Company will face competition from other Channels in the Cable distribution Network and Competition from similar Channel in future.

Management Perception: "Health" is a Niche subject and does not fall under the category of a General Entertainment Channel (GEC). Today there is scope in Niche segment as GEC band is saturated. This coupled with awareness about 'Health' in a common man, makes Company confident that in no time this channel will create its own Demand and then Distribution through Cable Network will be more easy, besides going on various DTH platforms from beginning.
